In this new field Col. Grossman has made revolutionary new contributions to our understanding of killing in war, the psychological costs of war, the root causes of the current "virus" of violent crime that is raging around the world, and the process of healing the victims of violence, in war and peace.

Colonel Grossman is a captivating speaker with keen insight into some of the most disturbing issues our society faces today. His dynamic personality and straightforward presentation make him one of the most desired speakers in the industry. **Don't miss out, register today!**
